

### *Fondue making*

*In an outdoor kitchen, under an open sky.*

*Each team is presented with the special ingredients and a recipe, and prepares their own cheese fondue outdoors, surrounded by nature. The fresh air and the tasty fondue provide an energising boost for whatever further adventures abound!*

We accompany you through natural surroundings, to the outdoor kitchen. The group is then divided into smaller groups of 4 to 6 people, who will be given all the necessary ingredients and a recipe to cook their own cheese fondue - en Guete!

Of course the different fondues can each be tasted, to 'test' their different tastes!
